Strategies for Questions?

Who is the audience for the research, and what will they use it for?

Some possibilities:

- Prioritization.
- Change funding.
- Prediction.

Strategies for Questions?

Rule 2: Find differences that make a difference.

Strategies for Questions?

Rule 2: Find differences that make a difference.

- Compare apples-to-apples.
- Compare sizes of effects.
- Compare differences in space and time.

Exercise from class 2: Write a possible finding for your research.
